

On Thursday I happened across a Turkey leg which was just over 2Kg for £4.62 which for us is quite and outlay for one piece of meat. But so far we have had:-

Turkey Curry - (This is not actually the recipe we used this time. But no worries)

Yesterdays Roast Turkey Drummer Dinner - (Again this is a repeat of and earlier recipe)

The Vegan - Gluten Free Yorkshire Pudding recipe is here if you fancy trying it - Recipe

We still a meal worth of frozen cooked Turkey Drummer meat and also a meal worth of frozen diced raw Turkey Thigh meat. So 4 meals and counting!
